IN THE MATTER OF THE PETITION OF)
VERIZON FOR THE ASSIGNMENT OF) CAUSE 42723
1000 BLOCK NXX CODES IN THE 765 NPA)

You are hereby notified that on this date, the Indiana Utility Regulatory Commission ("Commission") has caused the following entry to be made:

On September 21, 2004, Verizon ("Petitioner") filed its *Emergency Petition for Allocation and Assignment of 1,000 Block NXX Codes* ("Petition").

The Presiding Officer, having reviewed the information contained in the Petitioner's Petition and being duly advised in the premises, finds as follows:

In advance of the October 27, 2004 evidentiary hearing, Petitioner shall answer the following data requests on or before October 20, 2004:

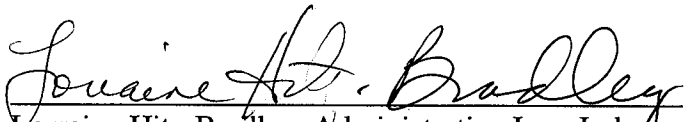

1. How many of the 1,000 numbers will be used within 6 months?
2. Is the customer going to switch out the old numbers?
3. The petition says IVY is experiencing a "shortage of 40 or 80" DID numbers. How does that translate to 1,000 numbers?
4. What is the crucial need IVY Tech is holding numbers for?
5. Do the classrooms not have numbers currently? How will a "1,000 block" make a difference for 911?
6. Please provide a copy of the IVY Tech letter referred to in the petition.
7. Please explain why this is not a vanity request.

IT IS SO ORDERED.
